Conformity of MISUMI products regarding RoHS and REACH as well as conflict minerals

MISUMI Europa GmbH is committed to environmental protection and has set up an environmental management system according to DIN EN ISO 14001. Further information and the corresponding certificates can be found on our homepage at <https://de.misumi-ec.com/de/unternehmen/verantwortung>. For this purpose, MISUMI products comply with RoHS and REACH regulations and do not contain any conflict minerals.

To the best of our current knowledge, all MISUMI products contain no substances in concentrations or in cross-border, notifiable, compounds which restrict or prohibit the placing on the market. All information on our products, including on our homepage, we give to the best of our knowledge and belief. They correspond to the current state of the art.

With our extensive product portfolio, an unexceptional verification and documentation is not possible. In this respect, we generally do not give a generally valid assurance regarding product conformity in terms of warranty law.

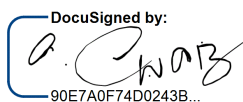

Of course, we will inform you upon notification of any deviations from the aforementioned guidelines.

For further discussions or joint votes we are at your disposal.

We look forward to further cooperation.

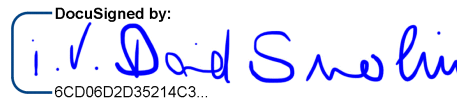

Best regards
